Jayesh Yadav

Full Stack Developer

+91-7900139651 jayeshyadav8080@gmail.com linkedin.com/in/jayeshyadav

Summary

Full Stack Developer with 2 years of experience designing, developing, and maintaining scalable, high-performance web applications. Proficient in JavaScript/TypeScript, React.js, Vue.js, Node.js, Express.js, PHP, MongoDB, and RESTful API development. Experienced in building responsive user interfaces, developing secure backend services, optimizing application performance, and implementing modern software development practices

Skills

Languages: JavaScript, TypeScript, PHP
Backend: NodeJS, Express.js, REST APIs
Databases: PostgreSQL, MongoDB, MySQL, ClickHouse
Frontend: ReactJS, VueJS, HTML5, CSS3, Tailwind CSS
DevOps & Tools: Docker, Linux, Ansible, Git, GitHub

Experience

Full Stack Developer **September 2023 – July 2026**
Symbolist Technology Pvt. Ltd.

- Designed and developed a **scalable affiliate management system** with real-time referral tracking and automated commission processing, eliminating manual workflows and improving operational efficiency.
- Integrated and optimized **ClickHouse** for high-volume analytics workloads, significantly reducing query latency and enabling real-time dashboard reporting.
- Implemented **secure authentication and authorization systems** using magic-link and token-based workflows, strengthening account security and streamlining user onboarding.
- Developed and maintained **30 RESTful APIs** and backend integrations, supporting scalable application growth and seamless communication between services.
- Containerized applications using **Docker**, reducing environment provisioning time by 60% and ensuring consistent deployments across development and production environments.
- Diagnosed and resolved **performance bottlenecks, database inefficiencies, and security vulnerabilities**, improving application stability, reliability, and maintainability.

Projects

Job Portal Website | *React, Node.js, MongoDB, TailwindCSS, shadcn-ui*

- Developed a full-stack job portal where **recruiters can create job postings** and **students can apply**, streamlining the hiring process.
- Executed **secure authentication with JWT**, role-based access control, and CRUD operations for jobs and applications.
- Implemented REST APIs with Express and MongoDB for scalable and persistent data storage.

Expense Tracker App | *React, Node.js, Express, MongoDB, Chart.js*

- Built an expense tracking application allowing users to log income/expenses and visualize spending patterns.
- Integrated **real-time charts and analytics** to provide insights into monthly and category-wise expenses.
- Built a responsive and modern UI with React, TailwindCSS, ensuring a clean user experience across devices.

Accomplishments

- **Participated in FreeCodeCamp Hackathon:** Collaborated on real-world projects in a fast-paced environment.
- **Solved 250+ Data Structures and Algorithms problems:** Strengthened problem-solving and coding proficiency.

Education

B.Sc. Information Technology **Graduated: 2022**
Mulund College Of Commerce , Mumbai *CGPA: 7.6 / 10*
